Horror Tunnel

The road to your inner fears begins with your first step inside the Horror Tunnel! You are going to scream and squirm at all the shocking scenes and fear moments from popular horror movies. Every step you take challenges your senses and mind control. You wonder if it is mischief done by the devil, a monster or is it your own inner demon playing tricks?

Deserted Junkyard

Challenge: Trypophobia

You are surrounded by rubbish inside a junkyard. In this twilight zone, something eerie is rustling amongst the trash, creeping closer and closer to you...

Swirling Vortex

Challenge: Sense of sight

Everything turns topsy-turvy the minute you walk inside. You are disoriented and hardly know up from down or right from left. You wonder if it is just a trick or mischief made by something unseen lurking about!

Dark Forest

Challenge: Fear of darkness and sense of hearing

In the dark forest so thick you can't see the path ahead, something or, is it someone, approaches in front of you. Your mind races, listening for a clue...

Crazy Scientist Laboratory

Challenge: Senses of smell and touch

You have entered the crazy scientist's laboratory and disrupted his research plans. You have no choice but to be his next experiment if you want to get out alive!

Hermetic Chamber

Challenge: Claustrophobia

Every step you take feels like stepping closer to a dead end. Can you find the way out? Wait a minute! Was that a shadow that just flashed across the window?

Puzzle Cube

Challenge: Intelligence

You are locked in a life-size puzzle cube in the final challenge. Tick, tock. Tick, tock. The clock is nerve-racking. Can the numbers on wall help you to escape?
